

Do Sheep Sleep?

Do sheep sleep – all wrapped in their fleeces, so shaggy and worn?

Do sheep sleep – or do they graze all through the night time long?

Do sheep sleep – or do they greet for the goats they've been separated from?

Do sheep sleep – or are they kept awake by the endless counting of those yawning for sleep?

Do sheep sleep – or do they weep for the bleat of their lambs that are gone?

Do sheep sleep – or do they count us sleepers in some different night-time song?

Do sheep ever go to
